COVID CATCH UP PLAN 2020 onwards

The school's COVID-19 Catch-up strategy is unashamedly targeted at the most disadvantage children within the school, either those in receipt of the Pupil Premium fund, those that have / had a social worker attached to their family or those who we know have struggled disproportionately to their peers. We also recognise that those children who are soon to transition to secondary school are in greatest need of additional support to close learning gaps from primary education. Finally, the plan remains flexible in order to take account of the emerging needs highlighted in assessment data.

The Education Endowment Foundation has provided research based strategies on how best to support vulnerable pupils. This guidance has been the starting point for our catch-up strategy.

Supporting great teaching

Great teaching is the most important lever schools have to improve outcomes for their pupils.

Ensuring every teacher is supported and prepared for the new year is essential to achieving the best outcomes for pupils.

Providing opportunities for professional development—for example, to support curriculum planning or focused training on the effective use of technology—is likely to be valuable.

Almost all schools will also have made significant adjustments to organisational and logistical aspects of school life. Ensuring teachers have training and support to adjust to these changes is likely to improve the quality of teaching as all pupils return to school.

Early career teachers, who may have had opportunities to develop their practice curtailed by school closures, are particularly likely to benefit from additional mentoring and support.

Pupil assessment and feedback

Assessment can help teachers determine how to most effectively support their pupils. Every pupil will have been affected differently by Covid-19.

Setting aside time to enable teachers to assess pupils' wellbeing and learning needs is likely to make it easier for teachers and other school staff to provide effective support.

For example, subject-specific assessments might be used to identify particular areas where pupils have forgotten or misunderstood key concepts, to ensure that new material being covered builds on secure foundations. Standardised assessments in literacy or numeracy might be used to identify pupils who would benefit from additional catch-up support.

Providing pupils with high-quality feedback, building on accurate assessment, is likely to be a particularly promising approach.

All pupils will need support to transition back to school. However, there are particular challenges for pupils starting a new school after the disruptions caused by Covid-19.

Planning and providing transition support, such as running dedicated transition events—either online or face-to-face, as restrictions allow—is likely to be an effective way to ensure pupils start the new year ready to learn.

Transition events might focus on sharing information about school with children and their families or running activities designed to make pupils feel comfortable in their new school, for example by introducing pupils to their new teachers and classmates.

Additional transition support might include using assessment to identify areas where pupils are likely to require additional support or creating opportunities for teachers to share information about pupils' strengths and areas for development with colleagues, including between primary and secondary schools where possible

Total Covid Catch-up Grant Received	£2570
Estimated cost of Catch-up Strategy	£1830

Targeted Support

One to one and small group tuition (AW- additional afternoon session)

There is extensive evidence supporting the impact of high quality one to one and small group tuition as a catch-up strategy.

To be most effective, creating a three-way relationship between tutor, teacher and pupils is essential, ensuring that tuition is guided by the school, linked to the curriculum and focused on the areas where pupils would most benefit from additional practice or feedback.

As a rule of thumb, the smaller the group the better. However, both small group and one to one tuition can be effective catchup approaches.

Tuition delivered by qualified teachers is likely to have the highest impact. However, tuition delivered by tutors, teaching assistants, or trained volunteers can also be effective. Where tuition is delivered by teaching assistants or volunteers, providing training linked to specific content and approaches is beneficial.

Intervention programmes

In order to support pupils who have fallen behind furthest, structured interventions, which may also be delivered one to one or in small groups, are likely to be necessary.

A particular focus for interventions is likely to be on literacy and numeracy. For example, there is extensive evidence showing the long-term negative impact of beginning secondary school without secure literacy skills. Programmes are likely to have the greatest impact where they meet a specific need, such as oral language skills or aspects of reading, include regular sessions maintained over a sustained period and are carefully timetabled to enable

consistent delivery.

Interventions might focus on other aspects of learning, such as behaviour or pupils' social and emotional needs, or focus on particular groups of pupils with identified special educational needs or disabilities.

Effective intervention follows assessment, which can be used to ensure that support is well-targeted and to monitor pupil progress.

Extended school time

In some cases, schools may consider extending the length of the school day; for example, to provide additional academic or pastoral support to particular pupils after school. There is some evidence that extending school time can have a small positive impact on learning as well as improving other outcomes, such as attendance and behaviour. However, to be successful, any increases in school time should be supported by both parents and staff.

Wider strategies

Supporting parents and carers

Parents have played a key role in supporting children to learn at home and it will be essential that schools and families continue to work together as pupils return to school.

Schools have provided extensive pastoral support to pupils and families throughout the pandemic. Additional support

in the new school year could focus on providing regular and supportive communications with parents, especially to increase attendance and engagement with learning. There is a risk that high levels of absence after the summer pose a particular risk for disadvantaged pupils.

Providing additional books and educational resources to families over the summer holidays, with support and guidance, may also be helpful—for example, offering advice about effective strategies for reading with children.

Access to technology

Pupils' access to technology has been an important factor affecting the extent to which they can learn effectively at home.

In particular, lack of access to technology has been a barrier for many disadvantaged children.

As all pupils return to schools, technology could also be valuable; for example, by facilitating access to online tuition or support. Some schools might find it helpful to invest in additional technology, either by providing pupils with devices or improving the facilities available in school. To support learning, how technology is used matters most.

Ensuring the elements of effective teaching are present—for example, clear explanations, scaffolding, practice and feedback— is more important than which form of technology is used.

In addition, providing support and guidance on how to use technology effectively is essential, particularly if new forms of technology are being introduced.

Summer support

Summer programmes can benefit pupils socially and academically, helping to ensure that they return to school ready to learn. Summer support can also focus on a wide range of outcomes, such as confidence and wellbeing, and include a wide range of activities such as sports, music and drama that children might have missed out on during lockdown.

One challenge for summer programmes is achieving high levels of attendance, particularly from children from disadvantaged families.

Communicating with pupils and their families to assess levels of engagement and barriers to attendance is likely to be important. In addition, staffing is a key challenge, recognising the extensive demands placed on teachers and schools in recent months and the challenges created by public health requirements.

For summer programmes to improve educational outcomes, they need to include high-quality academic support, such as small group tuition delivered by teachers or trained tutors.

Taddington's Summary of Teaching and whole-school strategies	Summary of intended outcome
Supporting great teaching	

Priority for all staff to be engaged within CPD following a year with reduced capacity due to Covid and staff ill health.

Through engagement in CPD and peer observations AFL strategies studied during TLC feature in teaching practice.

The school's CPD offer to be refocussed on appropriate KPI, SIP outcomes and AFL strategies.

CPD initially to focus on the core curriculum and wellbeing.

Mental Health workshops for all teachers & year 6 pupils

Pupil assessment and feedback

Teachers to use zones of regulation, morning circles and pastoral support to assess pupils wellbeing.

Star Assessment (standardised tests) will be used to identify pupil gaps twice half termly and demonstrate progress from Autumn baseline

Autumn 1 assessment data to be used as class benchmarks.

Electronic assessment project (Star Assessment) to be rolled out to all KS1 & 2 classes.

All highlighted pupils become main focus of interventions

Transition support

All vulnerable pupils were offered additional transition on the 2 start of year training days.

All PP and vulnerable children attend school throughout lockdown

Pastoral team maintained contact with vulnerable pupils throughout Covid lock down.

All PP / Social worker families were encouraged to attend throughout lock down.

Estimated Cost

Targeted Support

One to one and small group tuition

One to one support offered on an afternoon within reading time in KS1 & KS2

TA capacity increased on a morning (from 5 hours to 15 hours)

Additional TA support in EYFS.

KS1 teacher release time for small group sessions on an afternoon for KS1

Increase teaching capacity- Juniors to be grouped as Y3 / Y4 and Y5/Y6 for an additional morning (Friday morning) bringing the group size down from 22 to 16 and 9 respectively.

One to one TA support for vulnerable pupil 4 mornings each week.

Through increased TA capacity, interventions are delivered to all those identified as being vulnerable to achieving ARE or for those who suffered disproportionately to their peers.

For targeted children across the school, additional teaching capacity supports progress from autumn baseline with an aspiration of closing learning gaps and children achieving at least ARE.

Intervention programmes

FFT reading and writing intervention- training provided for TA

Number Stacks; critical number skills intervention- purchased

Toredescue fine motor skills intervention- purchased for KS1 and KS2 pupils

Data rich decision making support interventions to be specific, measurable and effective resulting in visible progress for targeted children

Estimated cost

Wider strategies

Supporting parents and carers

School implement parent workshops (outcomes from the emotional resilience survey) delivered by clinical psychologist and parent 'experts'

Parents provide a supportive resource for one another and report agency and fidelity to the workshops

Access to technology	
All disadvantaged children to have access to a Chromebook if the class needs to self-isolate. Online platform widened to ensure resources used at home mirror core areas within the school	Increase the current laptop/iPad inventory by 50% to enable access to technology for an entire bubble in the event of school closure and to support targeted intervention programmes in school time.
Summer support	
To be considered within the summer term 21	
Estimates cost	

Estimated costs

2020-21

HT release time for TA training - £743
 Assessment packages STAR £1200
 Support Staff £547
 1:1 Support for vulnerable pupils £5480

2021/2022

Assessment packages STAR £1200
 KS1 1:1 £6304
 School Led tutoring £2500

CPD pathways 2021 to support catch up
